BEWARE OF IMPOSITION.

and having the name Jas. Swaim, stamped on the sealing wax, and written on the label covering the cork ; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

SPRATT'S LIGHTNING RODS !
WITH branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.
Also, Fixtures for a new and valuable improvement in applying insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen.
The following recommendations have been furnished gratuitously—
Louisville, Jan. 27, 1851.
The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.
It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.
B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating *Attachments*, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid ; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

R. H. EDDY,
Solicitor of Patents.
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

PATENT AGENCY—
KIDDER'S GAS REGULATOR.
The Regulator is small, simple, easily applied; when once adjusted, requires no further attention. The disagreeable effect of Gas upon the complexion is almost entirely obviated by the use of the Regulator. The light being more agreeable in color and less injurious to the eye. The unhealthy consequences resulting from the escape of unconsumed gas are also remedied, besides a great saving is effected by its use, not only from the intense pressure from the street, but also when part of the lights in the room are extinguished the pressure necessarily increasing on those still burning, so that a large portion of the gas escaping unburned, and is of course wasted.
The Gas Regulator is highly recommended by the press at large. For sale in sizes suitable for Manufactories, Hotels, Stores, Offices, and private dwellings. W. D. GIFFORD,

144 THAMES STREET.

SATURDAY MORN'G, MARCH 10, 1855.

WANTED.

AN INTELLIGENT boy, of steady habits, to learn the printing business, to whom a good situation will be given; apply at this office immediately. n6

The New Post Office Bill.—We find in the Globe a synopsis of this bill, which is likely to work many important changes, not to say improvements in our postal system. Everything is to be prepaid after July, and the postage to California is to be ten cents instead of six.

The bill provides that, in lieu of the rates now established by law, there shall after the commencement of the next fiscal quarter, be charged for every single letter in manuscript or paper of any kind in which information shall be asked for or communicated in writing, or by marks or signs, conveyed in the mail for any distance between places in the United States not exceeding three thousands miles, three cents; and for any distance exceeding three thousands miles, ten cents. For a double letter the charge is to be double, for a treble letter, treble, and for a quadruple letter quadruple these rates.

Every letter or parcel not exceeding half an ounce in weight is to be deemed a single letter; and every additional weight of half an ounce or of less than half an ounce, is to be charged with an additional single postage. Upon all letters passing through or in the mail of the United States, excepting such as are to or from a foreign country, the postage is to be prepaid except upon letters and packages addressed to officers of the government on official business, which shall be so marked on the envelope. And from and after January 1, 1856, the Postmaster General may require postmasters to place postage stamps upon all prepaid letters upon which such stamps may not have been placed by the writers. All drop-letters or letters placed in any post-office not for transmission through the mail, but for delivery only, are to be charged with postage at the rate of one cent each; and all letters which are hereafter advertised as remaining over or uncalled for, in any post office, are to be charged with one cent each, in addition to the regular postage, both to be accounted for as other postages now are.

No postmaster or other person is to be allowed to sell any postage stamps or stamp envelopes for any larger sum than that indicated on their face, or for a larger sum than that charged therefore by the Post Office Department; and any person who violates this provision is to be deemed guilty of a misdemeanor, and on conviction, is to be fined in any sum not less than ten, nor more than five hundred dollars.

The following amendments were made to it, and accepted:

Provided, That nothing herein contained shall be so construed as to alter the laws in relation to the franking privilege.

And be it further enacted, That for the greater security of valuable letters posted for transmission in the mails of the United States, the Postmaster-General be, and hereby is authorized to establish a uniform plan for the registration of such letters on application of the parties posting the same, to require the prepayment of the postage as the registration fee of five cents on every such letter or packet to be accounted for by the Postmasters receiving the same in such manner as the Postmaster General shall direct; Provided, however, That such registration shall not be compulsory, and it shall not render the Postoffice department, or its revenue liable for the loss of such letters or packets, or the contents thereof.

☞ We learn that Capt. Thomas Brownell and Lady returned from Washington on Thursday morning in ill health, but their friends will be pleased to learn that they are regaining their usual health.—They will be happy to see their friends at their residence as it will be some days before they will be able to leave the house.

It is now believed that in due time the new Brigadier Generalship will be given to Jefferson Davis. He expects it to be a stepping-stone to the post of Commander-in-Chief. It is known the office was created for General Shields, and a statement to this effect, signed by a large majority of both Houses of Congress, is in the President's possession.

Mr. Mason, U. S minister in Paris, has almost entirely recovered his health.

NIAGRA FALLS.—We have before Spoken of the peculiarly grand and imposing aspect of this great wonder of nature in mid-Winter. The Lockport Courier has the following article, which we especially commend to all lovers of the picturesque:

The sight that awaits the visitors to the great cataract at this time is indescribably grand and imposing. Nature seldom take such queer fantastic fraks as she has done this season, and those who have witnessed her singular and unique doings will never forget the sublime spectacle.

The long protracted cold weather has solidified every particle of Niagara River, which has diverged from the main current, and has even made serious and astonishing inroads upon that. The spray as it flies through the air becomes congealed and falls upon the snowy shore in infinitisimal icicles or lodging upon the limbs of trees, clothes them with glistening robes of white, which makes them look like so many images of Grecian statury. Below the Falls huge mountains of ice have formed, which rise in proportions, and which threaten to hide entirely from view the Falls themselves.—At the head of Goat Island, the Rapids, which separate it from the "Three Sisters," are bridged over by the ice, and over the spot where usually runs a fierce and irresistible current, men and women walk in perfect security The formation of ice has turned most of the water into the main channel, rendering what is left perfectly harmless.

To see the Falls as they are now clothed in a clear day, when the innumerable icy spars and prisms reflect back with dazzling brilliance the sun's rays, is a rare and felicitous treat. *Many* of our citizens have improved the opportunity now afforded, which they will never regret. As long as the present weather continues there will be changes in the appearance of the Falls.

One of the boxes of gold, lost from the shipment of Messrs. Page, Bacon & Co on its way from California, has been recovered. It amounted to about twenty thousand dollars. It was found in the coal bunk of the Sierra Nevada, the ship by which the gold was brought down from San Francisco. The thieves had evidently concealed it there, and had not been able to remove it ashore. When the ship was being coaled, preparatory to returning to San Francisco, some of the men employed for that purpose discovered the box, and it was sent forward by the Star of the West. The other box is still missing.

CANADA.—The Governor General arrived at Montreal on Monday afternoon from Quebec to meet a public reception to which he had been invited. When the train reached Longueville, oppsite the city, the river presented a gay appearence from the number and variety of sleighs, and the presence of three bands of music. His Excellency was met by the Mayor and Corporation and coducted to the city, where the streets were crowded with spectators. Triumphal arches were thrown over the streets through which the procession passed. On Tuesday his Excellency was to open the "Local Exhibition."

The Ether Case at Lynn.—We understand from a note received by a physician of this city from Dr. Davis, the Dentist at Lynn, the death which occurred a few days since in his office was not produced by the inhalation of sulphuric ether, but by chloric ether, a mixture of cloroform and ether. No death, we are informed, has yet occurred from the use of sulphuric ether alone.—*Boston Journal.*

Good Speculation.—Persons who purchased the Texas claims which have just been passed by Congress and approved by President Pierce, have made a great speculation. Large sums have been sold as low as 15 cents upon a dollar. Ten millions will be required to pay these doubtful claims, but the attempt to pay half that sum to the claimant for French spoliations was vetoed!—*Boston Trans.*

The Governor of Massachusetts has appointed George H. Babbitt, of Taunton, Sheriff of Bristol county, in place of Robert Sherman, removed. Mr. Sherman retires from the office with the undiminished confidence of the public, and without having sacrificed his self respect by deserting, at the election, the party with which he professed to act.—*Prov. Jour.*

Education for the army.—We are in a position to announce that arrangements have bheu made with his majesty, the emperor of the French, for the admission of all those generals of the British army whose faculties are not impaired by age as students at the *Ecole Polytechnique.*

The steamship Catawba has arrived at this port with Havana dates to 4th inst.

The steamship Knoxville has arrived at this port after a passage of 57 hours from New York.

Baltimore, March 8.

General Cass arrived here from Washington last night and was recieved with a salute of 32 guns.

The livery stable of John Long, adjoining the Fireman's Hall and facing the Biddle House, was destroyed by fire last night and from 15 to 20 horses perished in the flames. A large number of carriages, waggons and sleighs, including many left there by manufacturers, &c., were consumed.

The total loss is about $20,000. Insurance only $5,000.

Boston, March 8.

Anthony Burns arrived in this city yesterday, and had had a public reception last evening at Tremont Temple, at which about 1,000 persons were present. Prayer was offered up by the Rev. Dr. Neale.—Burns was then introduced to the assembly by the Rev. Mr. Grimes, a colored clergyman of the city, who made a statement in regard to the efforts made to accomplish his liberty.

Burns then addressed the audience in substantially the same terms that he did in New York. He was followed by the *Rev.* E. N. Kirk, who denounced slavery with much emphasis.

The doxology was sung, and many persons advanced to the platform and shook hands with Burns. The reception seemed to be quite of a religious cast, and no prominent abolitionists took part in the services. A fee of 25 cents was charged for admission.

Chicago, *March* 7.

The *Know* Nothing majority for Mayor in this city is 344. This morning the order formed a long procession, and headed by a band of German musicians marched in triumph through the streets, shouting in triumph. *No* disturbance of the peace took place.

New York, March 8.

Bill Poole, the pugilist and prize-fighter, who was severely wounded in the recent disgraceful affray among the "fancy," died this morning of his injuries. His murderers are all or nearly all in custody.

After an examination to day, Judge Stuart issued warrants for the arrest of several persons charged with aiding in the escape of Baker, the murderer of Poole. Several members of the police department are suspected of conniving at and assisting in the flight of the murderer.

The Collins Appropriation.—If the accounts from Washington to the New York papers be correct, the President's last veto has not resulted in saving any money to the Treasury for the present. In the Senate, Mr. Seward moved to attach the vetoed bill as an amendment to the naval appropriation bill with no other alteration than the omission of the clause which repealed the right of the United States to terminate the contract of Mr. Collins by giving six months' notice. The amendment was unanimously adopted in the Senate; it is stated that the House concurred and the President signed the bill. In this form, Mr. Collins will recieve $858,000 annually for 6 years and be obliged simply to replace the "Arctic" with a new vessel, as was provided in the vetoed bill—but the United States ... terminate the arrangement by giving 6 ... notice.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS.—A CASE CERTIFIED BY THE MAYOR OF BOSTON, ENGLAND.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To PROFESSOR HOLLOWAY,

Dear Sir,—Mrs. SARAH DIXON, of Liquorpond Street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared By persevering with the medicines, for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health. I remain, Dear Sir, yours truly,

Dated August 12th, 1853. (Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated Jan 12th, 1853.

To PROFESSOR HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

CAUTION.

WHEREAS my husband, THOMAS REED, has, without the slightest cause or provocation, sold off our furniture, turned me and my children out of doors, without a cent of money to procure us bread, and has otherwise cruelly treated me,—and whereas I have heard and have reason to believe that he intends to sell the real estates he owns in this city, and then quit the State, leaving me to take care of myself and child as best I can:—I therefore caution all persons against purchasing said Estates, as I intend to take legal measures to compel my said husband to contribute towards the support of myself and child. I am at present unable to support myself as I am daily expecting to be confined. The estates above referred to consist of a lot of land opposite the Coddington Mill, with three dwelling houses thereon; and one other lot of land on Wellington Avenue, and near the other lo. On the last mentioned lot there is a mortgage for about $700, and on two of the other houses there are two mortgages amounting together to about $1,000—I signed each of the mortgages — The whole property is worth, I should think, $2,400 over and above the mortgages; and I feel quite sure that I have contributed as much towards the purchase of these estates as my husband has, for after our marriage I continued for eight months to work in the Mill, at $16 per month for myself—with my husband; after leaving the Mill we took boarders, and for six years, down to the last week, we had all the time from 5 to 22 boarders,—and nearly the whole period I did all the work myself. My husband informed me that he owned 100 acres of land in Pennsylvania; he received a letter from Wales, in England, about six weeks ago, informing him that a legacy of some $2,000 or £2,000, I could not tell which, had been left him. It is apparent, therefore, that my husband is amply able to support me and his child.

DR. HAM'S AROMATIC INVIGORATING SPIRIT—WHAT WILL IT DO!

Dr. HAM, the inventor and discoverer of this medicated Beverage, assures the public that for the complaints and ailments it is recommended to remove and cure it will not deceive nor disappoint the patient;

One bottle cured a gentleman of Dyspepsia with Water Brash Eructations; he felt better after taking the first dose.

Mrs. Storms, of New York city, was so troubled with dyspepsia, that she had not eaten meat for four years. She was entirely cured by half a bottle. She was so much relieved after taking one wine glass of the Invigorating Spirit that she could eat a meat dinner without difficulty.

HERRING'S FIRE and BURGLAR PROOF SAFES.

THE Undeniable Evidence of the Superiority of the Safes manufactured by the subscriber, is known and acknowledged by a discriminating public, who are assured that all Safes made and sold by him or his authorized agents, will be equal to the best, and superior to some of the many which have passed through the fiery ordeal for the last fifteen years; as published and commented upon by the press throughout the United States. They are secured with the celebrated Hall's Patent Powder Proof Lock—the subscriber being the patentee by purchase.

It is generally known all over the world that the Proprietor placed his Safe, in competition with some thirty others, at the World's Fair, London, in 1851, placing within it one thousand dollars in gold, as a reward to any one who could open the Safe, but not one of the operators was found sufficiently skilled in the art of lock picking to pick the lock or open the Safe—the money remained secure for forty five days. At the close of the Exhibition, the Jury on Safes and Locks very justly awarded separate medals for the Safe and Locks, which can be seen and compared with the one awarded for the same patents at the World's Exhibition in New York, in 1853-4. They can be had of the Proprietor and his agents in most of the cities in the United States and Canada.

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

FOR NEURALGIA AND RHEUMATISM.
DOCT. TRIPP,

WHO has devoted many years to the treatment of Neuralgia and Rheumatism, has succeeded in discovering a new remedy, which in the most severe as well as milder cases has proved an infallible remedy, and has fully met the approbation of eminent medical men, many of whose testimony he has in his possession.

The monsters Rheumatism and Neuralgia, so prolific of pain and misery, when invidious attacks upon the head, face, shoulders, back, loins, knees, feet, hands, &c., producing palpitation, fainting, distortion and deformity, have from all ages baffled the skill of eminent practitioners, nor has it been possible at any time to correct the viciated state of the fluids by any outward application, such as pain killers, ointments, liniments, &c., but in all cases where a cure has been performed, it has been done with alkaline medicines used internally; all others giving but partial relief.

DOCT. TRIPP has no remedy that cures all ills that flesh is heir to, but for the above complaints he feels safe in saying that within the last four years he has not known a single case where it has not produced

IMMEDIATE RELIEF.

and a permanent cure. Whoever uses it for acute, chronic, inflamatory or mercurial Rheumatism or Neuralgia in any part of the system, in any degree of severity, or for pains of cancers or head-ache, and does not get immediate relief, may return the medicine at his expense, and the money will be refunded.

This remedy may be obtained of Dr. Tripp, No. 139 Union street, New Bedford, Mass., or will be sent to any part of the country by express.

All orders should be addressed to Dr. T., box 421, New Bedford.

N. B.—As heretofore, it will be furnished to all medical practitioners for their own use, gratuitously, a29—1y
